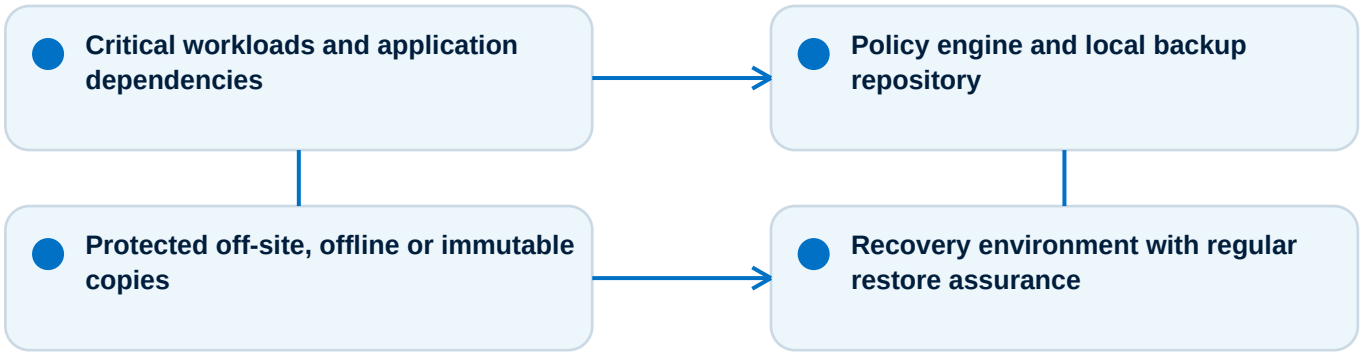
TECHNICAL REFERENCE / SOLUTION ARCHITECTURE

BACKUP & DISASTER RECOVERY

Recoverability engineered around business impact

01 / CONCEPTUAL TOPOLOGY



Simplified conceptual layers, not final connection or resilience engineering.

02 / ENGINEERING DISCOVERY

- Recovery point and time objectives by workload
- Credential separation, immutability and retention
- Regular recovery exercises and ownership of runbooks

FROM REFERENCE TO REQUEST FOR QUOTATION

Please provide project locations, proposed quantities, existing systems, required outcomes and target dates. KABO confirms OEM options, integration, stock and pricing per request.
