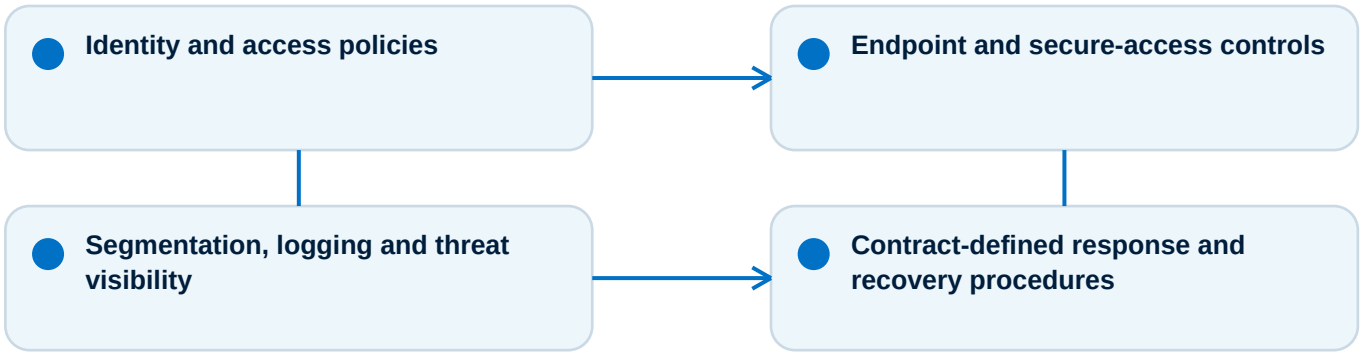
TECHNICAL REFERENCE / SOLUTION ARCHITECTURE

CYBERSECURITY INFRASTRUCTURE

Layered controls across users, networks and workloads

01 / CONCEPTUAL TOPOLOGY



Simplified conceptual layers, not final connection or resilience engineering.

02 / ENGINEERING DISCOVERY

- Threat assessment and applicable regulatory obligations
- Endpoint inventory, least privilege and logging
- Monitoring, containment and incident response responsibilities

FROM REFERENCE TO REQUEST FOR QUOTATION

Please provide project locations, proposed quantities, existing systems, required outcomes and target dates. KABO confirms OEM options, integration, stock and pricing per request.
