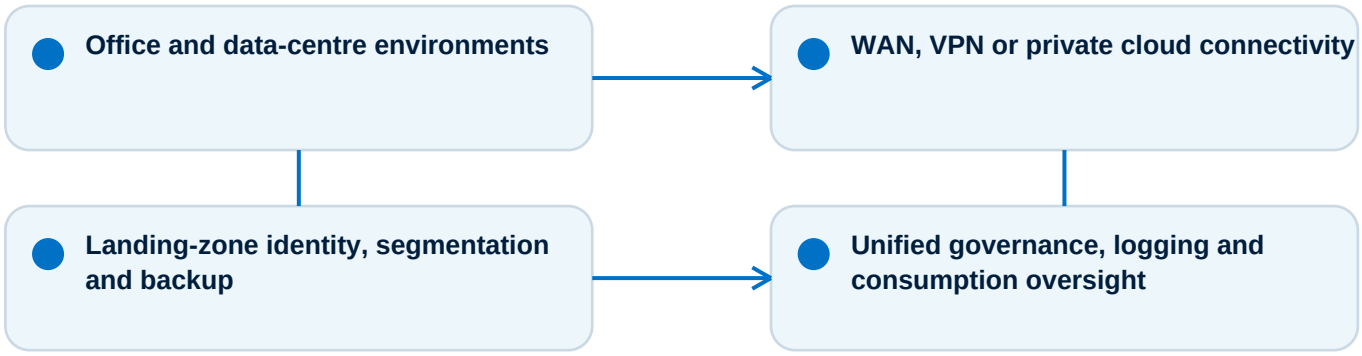
TECHNICAL REFERENCE / SOLUTION ARCHITECTURE

HYBRID CLOUD INFRASTRUCTURE

Secure on-premises and cloud operating patterns

01 / CONCEPTUAL TOPOLOGY



Simplified conceptual layers, not final connection or resilience engineering.

02 / ENGINEERING DISCOVERY

- Application and data mapping, cloud region policies
- Carrier options, latency and identity federation
- Billing, operational responsibility and recovery requirements

FROM REFERENCE TO REQUEST FOR QUOTATION

Please provide project locations, proposed quantities, existing systems, required outcomes and target dates. KABO confirms OEM options, integration, stock and pricing per request.
