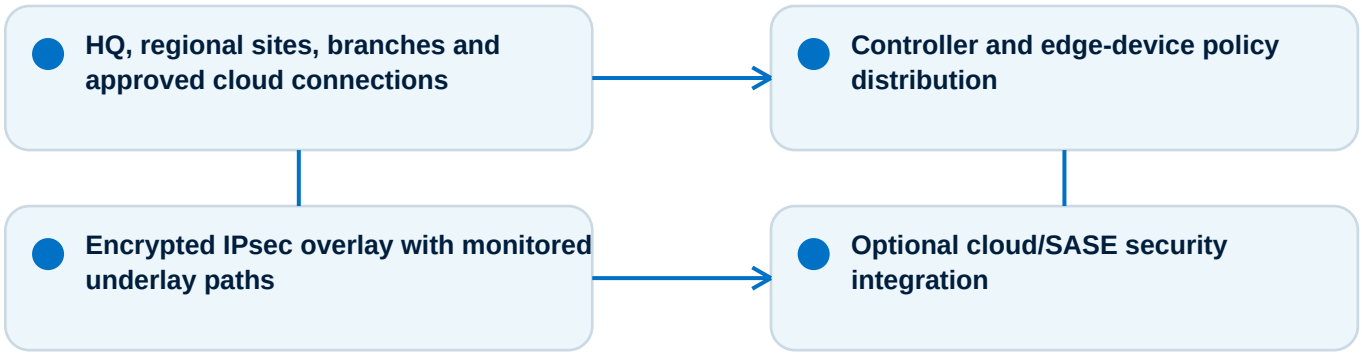
TECHNICAL REFERENCE / SOLUTION ARCHITECTURE

SD-WAN & MULTI-SITE CONNECTIVITY

Application-aware WAN over encrypted overlays

01 / CONCEPTUAL TOPOLOGY



Simplified conceptual layers, not final connection or resilience engineering.

02 / ENGINEERING DISCOVERY

- Site inventory and available fibre / wireless / MPLS underlays
- Latency, loss, jitter and application priorities
- Edge resilience, segmentation, failover and support ownership

FROM REFERENCE TO REQUEST FOR QUOTATION

Please provide project locations, proposed quantities, existing systems, required outcomes and target dates. KABO confirms OEM options, integration, stock and pricing per request.
